To Whom It May Concern:

Adams County Health Center Dental Program Supports Council
School Children

The ACHC Dental Program works with Council school children to ensure that each student has the opportunity to achieve dental health. Through the use of grant funds, the clinic was able to offer each of our students sealants. They picked up and delivered 56 students. These sealants benefited children who otherwise would not have been able to afford this service.

We appreciate ACHC Dental Program including our students in their programs and providing them with these valuable opportunities.

Sincerely;

Mrs. Thompson
Principal
